

# **Summit Medical Group Oregon is Now Summit Health**

## **Frequently Asked Questions**

### **Why did Summit Medical Group Oregon change its name to Summit Health?**

The Summit Health name change signifies the next chapter for our group. Setting the course for continued innovation and advancement in health care, Summit Health will offer the same high-quality service our patients have come to expect and trust—but even better. The result is health care that’s more compassionate, considerate, and human. We call it a more connected kind of care.

Our rebranding comes at a time of fragmented care, shifting sources of trust and heightened health awareness and when patient expectations are being reshaped by new forms of patient care and health management.

As Summit Health, we will bring deep clinical integration – meaning more coordinated care, growth in providers and locations – meaning more convenience, and an enhanced digital experience for our patients.

### **How will this change affect the care I receive?**

This change does not affect the way we are structured or how we operate as a business. Office locations will remain the same, and you will receive the same great care you have come to know and expect.

### **Will I still be able to call the same number to reach my doctor?**

Yes, the contact information for your providers has not changed.

### **Has the patient portal changed?**

Patients will still be able to access their portal accounts in the same manner they are used to.

### **Will I see a change on your website?**

You can still find us at [smgoregon.com](http://smgoregon.com), but the website will be rebranded to match our new look.

### **Where else might I notice a change?**

Over the next several months, we will be rolling out our new brand, and you will begin to see the new branding appear in the form of office materials such as brochures and pamphlets, posters, and more. Our new brand identity will also be visible on our social media accounts. Be sure to follow us to stay up to date on important group and health information.

**Welcome to Summit Health! We hope you enjoy a more connected type of care – the network you need, the continuity you want, and the clinical excellence you deserve!**
